

eLibrary: Belt and Road Initiative (Version 2.0 August 2020)

Richard T. Griffiths (Leiden University)

Email: newsilkroads2020@gmail.com

This is the latest version of an electronic library of resources on the BRI. It is intended to offer support to teachers and students studying the BRI as part of their undergraduate education and to act as a springboard to individual projects. It defines the BRI countries as those listed in the original scheme by the National Development and Reform Commission (i.e. everything from mainland Asia to Central and Eastern Europe but, excepting Egypt, excluding Africa). Any suggestions will be welcome.

The IIAS 'New Silk Road' project has over 700 researchers wanting to engage in collaborative teaching and research. The project help facilitate making new connections. To join, please write at the email address above.
